

Interface elements

Toolbar functions

-  **State navigation** lets you step back and forward between your catalog selections in the Organize Panel.
-  **Open With** launches the selected media items with a *Helper* application that can view, edit or mail media files.
-  **Show Media File** reveals the location of the selected media items on the desktop or mounted storage volume.
-  **Move to Recycle Bin** removes the selected items from the catalog and moves the original files to the Recycle Bin (Trash on Mac).
-  **Send Email** will convert and attach selected media items, then add them as an attachment to a new email in a designated email client.
-  **Voice Annotation** allows you to record, listen, remove or import audio annotations attached to media items.
-  **Assign Label** will assign one of nine color labels to the selected media items. Also provides the option to remove a label.
-  **Rate media** will assign one of five star ratings to the selected media items. Also provides the option to remove a star rating.

-  **Show All Items** restores the view of a catalog to show all items. Available after search, sort and organize functions.
-  **View Options** will display a palette that controls which fields are displayed, as well as the font and colors for each view.
-  **Sort** will reorder items in your catalog by more than 25 criteria such as color label, file name, capture date and dimensions.
-  **Play Media** contains options to play a movie, animation or sound. The spacebar will start or stop the playback of media, as well.
-  **Print** displays options for printing lists, contact sheets and single images from your catalog.
-  **Image Editor** shows a palette to crop or resize photos, as well as adjust color, tone or sharpness and make other enhancements.
-  **Slide Show** launches a presentation in a full screen slide show, beginning with the selected media item.
-  **Light Table** - select up to six images then click this icon to launch the full screen viewing and comparison tool.
