

iView MediaPro™
Manage your creativity

The visual database for all your media files. Fast. Flexible. Easy to use.

iView MediaPro is a digital asset management & cataloging solution for photographers and creative professionals. It enables you to create a customized, centralized & searchable repository through which a wide variety and high volume of digital files can be managed. Quickly and easily import, organize, search, annotate, repurpose and archive all of your digital files.

Powerful Import Options

Professional File Format Support: Robust, intelligent drag & drop import more than 100 different media formats including images, audio, video, fonts, illustrations, PDF, HTML and digital camera RAW files (including Nikon, Canon, Kodak, DNG and more).

Intuitive Archiving & Retrieval

Create visual databases (catalogs) with previews & metadata of all your media files that can be browsed and searched, even when the originals are offline. Use powerful search functionality to locate & retrieve your valuable assets. Keep catalogs up-to-date with Folder Watching.

Versatile Media Display

Quickly and easily review, compare, organize and present all of your digital media files the way that you want.

Full Metadata Control

Drag-and-drop assign and batch apply metadata to media files using industry standards (including IPTC/XMP Core & EXIF). Embed metadata into original files.

Robust Batch Processing

Streamline your workflow by annotating, renaming and converting large numbers of files quickly & easily. Edit images in single or batch mode with Version Control.

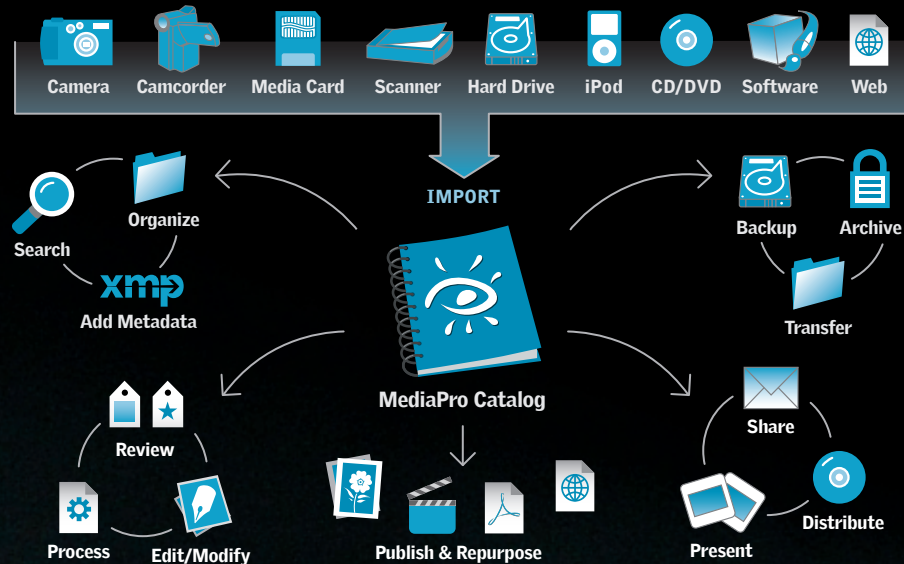

Creative Export Options

Publish & distribute media with cross-platform slide shows, movies or Web Galleries. Create high quality PDFs, contact sheets & printouts of any size and layout.

Experience the power

Streamline your DAM workflow

iView MediaPro, the #1 digital asset management (DAM) solution saves you time, energy and money using batch and automated processes in a central media repository.

Praise for MediaPro

"iView MediaPro gives me the best and most comprehensive cataloging ability of any application out there."

KEVIN FOLEY - PHOTOGRAPHER TO THE STARS

"Once I knew that I was going digital, I asked colleagues to recommend media management software and the 'word of mouth' choice was iView MediaPro."

IRA BLOCK - PHOTOGRAPHER, WHOSE WORK REGULARLY APPEARS IN THE NATIONAL GEOGRAPHIC AND ITS OTHER PUBLICATIONS

"I depend on iView MediaPro - it does everything I need and more. Most importantly, I can configure it to do work the way I want it to, because it's so highly configurable, logical and easy to use and at the same time, powerful."

ELLIOT LANDY - CELEBRITY PHOTOGRAPHER
